

INGENIOUS PROBIOTIC AIR DISPENSER REFILL

Denaa+ PROBIOTIC BIO-CLEANING

Naturally Cleanses, Re-Balances & Enriches the Indoor Environment

The Ingenious Probiotic Air Dispenser Refill solution is packed with the 100% natural, cleansing and healing power of completely safe, plant-based, health-enhancing, helpful probiotic bacteria. The probiotics create a healthy, safe and naturally clean indoor environment by restoring environmental balance at a microbial level. This is called a healthy microbiome.

When diffused through the Air Dispenser, the probiotics provide a long-lasting clean at a deep microbiological level. They remove potentially harmful microbial biofilms, opportunistic pathogenic bacteria and fungal spores. This significantly reduces the incidence and transmission of bacterial and fungal infections, and the growth of mould.

Minimises Bacterial & Fungal Infections, Bio-Allergens

Probiotics also minimise the root causes of allergic reactions, consuming the bio-allergens -including dust mite faeces, skin flakes, animal dander and pollen - that trigger immune system reactions such as asthma and hay fever.

The probiotics actively prevent unpleasant odours by removing the root cause (the pathogenic bacteria). A wide choice of natural scents can be added to the diffuser if preferred. These include: aloe vera, apple, basil, lemon, kiwi, mint, pine, pomegranate, seaweed, thyme and vanilla.

DENAA+ Probiotic Air Dispenser Refill is eco-friendly, and has a long-lasting action. All ingredients are chemical-free, non-toxic, non-irritating and hypoallergenic. The spray is completely safe to use and is suitable for sensitive skin.

INSTRUCTIONS

Screw securely into the Probiotic Air Dispenser as per the manufacturers instruction.

RECOMMENDATIONS

- For use with the Ingenious Probiotic Air Dispenser.
- Do not use with products that may change effectiveness.
- For use on waterproof surfaces only.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Plant-based probiotic bacteria (auto-active microorganisms)
- pH stabiliser
- Choice of optional natural aromas
