BETTER CLEANING RESULTS

CREATE A HEALTHIER INDOOR ENVIRONMENT

EVAA+ Commercial & Residential probiotic cleaning products are specifically designed for homes and workplaces. All products are eco-friendly, vegan, non-polluting, non-toxic and cruelty-free.

The range is packed with the natural cleaning power of carefully selected 'good' bacteria called probiotics, sourced from plants. These highly effective and helpful probiotics do more than clean dirt; they clean deep into hard to reach nooks and crannies and safely restore natural environmental balance (a healthy microbiome) at a microbial level.

EVAA+ Commercial & Residential probiotic cleaning products safely inhibit harmful bacteria that cause diseases, without causing them to mutate and develop resistance.

They improve indoor air quality because they are non-polluting, eliminate root causes of odour and significantly reduce mould and bio-allergens (pollen, animal dander, skin flakes and dust mite). They continue to clean between applications, giving longer lasting, more effective results.

All EVAA+ probiotic cleaning products work in a safe, natural, and mechanical way, without chemicals, toxins or carcinogens. They are safe for long term use by cleaning operatives and protect them from product-related illnesses.

- ✓ Restores a healthy ecological microbiome, which supports immune system function.
- ✓ Naturally sourced from plants; sustainable, biodegradable & environmentally responsible.
- ✓ Completely safe for cleaning operatives
- ✓ Significantly improves allergy management by reducing symptoms from bio-allergens & chemicals.
- ✓ Actively eliminates the sources of unpleasant odours - no need for chemical air fresheners.

HOW EVAA+ PRODUCTS CLEAN

NATURAL, SAFER & MORE RESPONSIBLE THAN CHEMICAL CLEANING

Inhibits Harmful Bacteria without Causing Mutation & Resistance

Antimicrobial resistance (AMR) - where bacteria and other microorganisms become resistant to previously effective treatments - is a growing global threat to health. It is fuelled by overuse of antibiotics and common biocide and chemical cleaning agents.

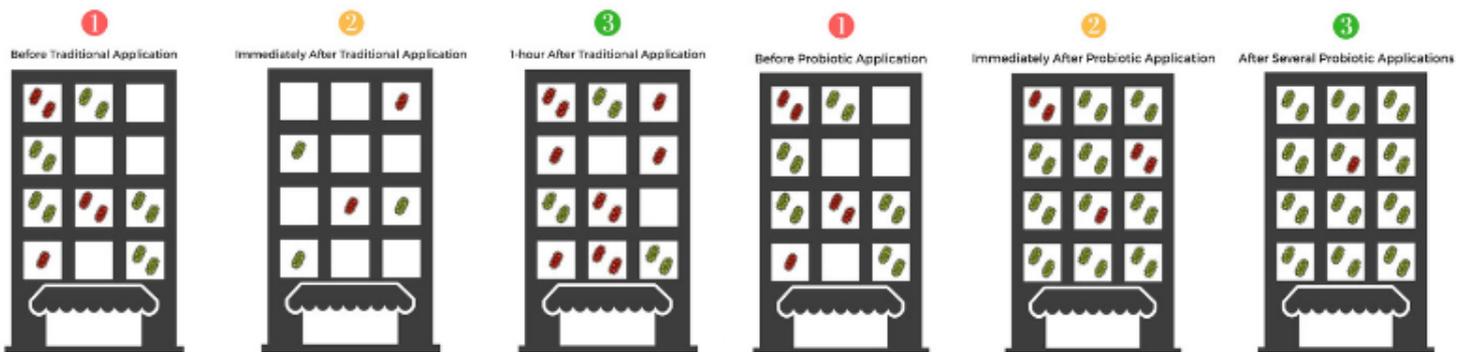

These cleaners kill 99.9% of all bacteria - good and bad - but work in a way that allows the remaining pathogens to replicate back almost immediately. They are pushed to evolve, grow a protective shield and mutate into resilient super bugs. But increasing the strength of cleaning chemicals only fuels the mutations - and decreases effectiveness - with every cycle.

✓ Cleans & re-balances microflora

✓ Vegan & sourced from plants

✓ Longer lasting action

TRADITIONAL VS. PROBIOTIC CLEANING

In contrast, EVAA+ probiotic cleaning products work in a mechanical way using the simple, natural processes of bio-augmentation and bio-competition. Huge quantities of carefully selected helpful probiotics simply re-populate areas where the pathogen bacteria thrive. They out-compete the pathogens for food and space needed to survive. The pathogens die and become a food source for the probiotics. This natural cycle restores a safe ratio of helpful to harmful bacteria - a healthy and natural microbial balance. The pathogens are inhibited without causing mutation and resistance.

Destroys Viruses Including Covid-19

EVAA+ probiotic cleaning products are eco-detergents that thoroughly cleanse. The action of cleaning combined with soap surfactants breaks apart the virus fat membrane. The helpful probiotics then safely consume the broken-down virus as a natural food source. They remain on the skin after hand washing and on surfaces and floors after cleaning. This means they continue to work between applications. They also maintain effectiveness if used with alcohol hand gels.

evaa⁺ AIR OPTIMISER SPRAY

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Improves Management of Organic-Based Allergies

EVAA+ Green Air Optimiser is a simple and effective preventative spray that improves allergy management. It prevents dust mite, pollen, pet hair and other organic-based skin and respiratory allergy reactions.

The spray is packed with the natural cleaning power of 'good' probiotic bacteria, sourced from plants. These helpful probiotics work at a deep microbial level to restore environmental balance and a healthy microbiome.

The spray is eco-friendly and has a long-lasting action in the air, on hard surfaces and on soft furnishings. Ingredients are chemical-free, non-toxic and do not pollute indoor air.

Reduces Allergic Reactions to Dust Mite

EVAA+ Green Air Optimiser significantly reduces allergy symptoms. The helpful probiotics safely consume bio-allergen triggers - including dust mites, pollen, skin flakes and mould - as a natural food source. This is especially beneficial for dust mite allergies:

House dust mites are microscopic relatives of spiders. They live in dust particles and are found in most buildings, all year round. Dust particles thrive in soft furnishings such as mattresses, carpets, upholstery and curtains. A mattress can contain tens of thousands of dust mites.

They also float in the air. They do not bite, but feed on mould and skin human and animal skin flakes. One dust mite produces around twenty waste droppings every day; each droppings contains a protein bio-allergen that can cause asthma and allergic reactions.

Spray - 300ml

Reduces allergy symptoms from organic sources

Natural, vegan, chemical-free & non-polluting

Easy to use; long lasting results

INSTRUCTIONS

Maintain good general hygiene for best results. Shake before use, spray EVAA+ Green Air Optimiser into the air and allow to settle onto surfaces. Do not wipe. Use once per day for the first five days then repeat once per day every three days. Can also be sprayed directly onto surfaces and soft furnishings.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- This product is not a medicine or medical device.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- pH Stabiliser
- Emulsifier (Castor Oil)
- Aloe Vera Perfume

evaa⁺ HYGIENE SPRAY

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Keeps Reusable Face Masks & Textiles Clean & Hygienic

EVAA+ Hygiene Spray makes wearing a material face mask more pleasant and hygienic. The spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants. These helpful probiotics introduce a natural, healthy micro-flora directly onto the fabric, which creates a protective barrier for the wearer.

EVAA+ Hygiene Spray reduces the washing frequency, which protects the mask's effectiveness. Intensive washing can make fabric more permeable. Increasing comfort increases mask wearing compliance.

The anti-allergic formula also improves allergy management by reducing organic-based skin and respiratory allergy reactions to dust mite, pollen, pet hair and other bio-allergens.

Spray - 100ml
Spray - 300ml

- ✓ Cleans organic dirt and saliva.
- ✓ Eliminates unpleasant smells, including stale sweat.
- ✓ Natural ingredients, chemical-free & sustainable.
- ✓ Vegan certified and cruelty-free.
- ✓ Non-irritating, non-toxic and anti-allergenic.
- ✓ Also for trainers, gloves and other reusable textiles.
- ✓ A + rated for respiratory safety and air quality
- ✓ Natural Aloe Vera scent.

Makes masks more hygienic & comfortable.

Reduces washing requirements

Suitable for trainers, gloves & other textiles

INSTRUCTIONS

Shake before use. Spray directly onto textiles and allow to dry for approx. 10 minutes. Re-application recommended 2 - 3 times a day.

RECOMMENDATIONS

- Do not use in combination with other products.
- Avoid contact with eyes.
- Do not swallow.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- This product is not a medicine or medical device.

COMPOSITION

- Water
- Plant-based probiotic bacteria (auto-active microorganisms)
- pH regulator
- Emulsifier (castor oil)
- Natural Aloe Vera scent

evaa⁺ DESCALER

NATURAL COMMERCIAL & RESIDENTIAL CLEANING

Easy to Use, 100% Natural Descaler Spray

EVAA+ Friendly Descaler is an eco-friendly and 100% natural de-scaling spray that effectively cleans and removes limescale. It is specially developed to improve the hygiene of kitchens and bathrooms.

The spray is made from natural acids found in citrus fruits and has a pleasant, natural lemon aroma. (It does not contain probiotics). It is easy to use and has a long lasting action.

Spray - 500ml
Refill - 25 litres

Efficiently Removes Limescale without Chemicals

Limescale is a chemical deposit that often occurs in areas of hard water. It has an unsightly appearance and promotes the growth of bacteria. It can reduce the functioning of taps and fittings and shorten their service life.

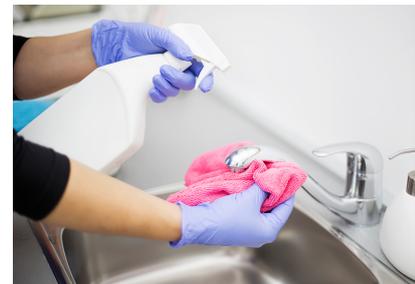

EVAA+ Friendly Descaler is non-corrosive and non-polluting and is kind to the environment. It does not contain any chemicals or toxic ingredients and is completely safe for long term use by cleaning operatives.

For best results, use together with EVAA+ Sanitary Cleaner: First use EVAA+ Friendly Descaler to remove limescale. Then use EVAA+ Sanitary Cleaner to remove organic material and bacteria, bring freshness, shine and a longer lasting clean.

✓ **Eco-Cert certified - sustainable & natural**

✓ **Natural & fresh lemon aroma**

✓ **Chemical-free, non-corrosive & non-toxic**

INSTRUCTIONS

Spray on limescale spots and allow to soak for 10 minutes. Then scrub and rinse with water. Follow with EVAA+ Sanitary Cleaner spray.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- pH Stabiliser
- Citric Acid
- Emulsifier (Castor Oil)
- Lemon Aroma

evaa⁺ DISH SOAP

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Washing Up Liquid Cleans Dishes without Chemicals

EVAA+ Green Dish Soap is an eco-friendly washing up liquid that is especially designed for deep cleaning dishes. It is packed with the natural cleaning power of helpful probiotic bacteria, naturally sourced from plants.

The helpful probiotics safely clean dishes at a microbial level, eliminating ingrained food and organic material and dissolving fat. They also remove the organic sources of unpleasant washing up odours.

EVAA+ Green Dish Soap creates an increasingly healthier ecosystem in your kitchen over time. It cleans in a safe, natural and mechanical way that keeps working between applications. This keeps the sink area and dish cloth and scourer cleaner and free from harmful bacteria between uses.

Suitable for Sensitive Skin & Kind to Hands

EVAA+ Green Dish Soap is non-irritating and safe for sensitive skin. Ingredients are naturally sourced, chemical-free, non-polluting and non-toxic. It contains no parabens or bleach and is quickly biodegradable.

Washing up pet drinking and food bowls with EVAA+ Green Dish Soap assists allergy management in pets who have allergic or sensitivity reactions to chemical cleaning agents.

Bottle - 300ml
Refill - 5 litres

Vegan, natural eco-friendly & chemical-free

Kind to hands, suitable for sensitive skin

Natural orange & pomegranate aroma

INSTRUCTIONS

Use a small amount of product, depending on how dirty the dishes are. Clean manually with a sponge or brush to remove stubborn residue.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Anionic Surfactants
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Oil
- Thickeners
- pH Regulator
- Orange & Pomegranate

evaa⁺ FLOOR CLEANER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Creates an Increasingly Healthier Microbial Environment

EVAA+ Green Floor Cleaner is a safer and eco-friendly alternative to chemical and synthetic floor cleaners. It is packed with the natural cleaning power of 'good' probiotic bacteria, sourced from plants.

These helpful probiotics thoroughly clean floors at a deep microbial level. They work in a natural and mechanical way that also inhibits harmful opportunistic bacteria and restores ecological balance to the floor. This reduces the risk of common bacterial infections including E. coli, Campylobacter and Staphylococcus aureus.

Their mechanical action continues to work between applications, which gives longer lasting and more effective results. The resulting clean is healthier, safer and can last for several days.

The helpful probiotics improve allergy management - in humans and pets - by safely consuming bio-allergen triggers as a natural food source. These include dust mite faeces, pollen, skin flakes and mould spores.

EVAA+ Green Floor Cleaner eliminates the root organic causes of unpleasant odours, without needing masking chemical air fresheners.

Natural, Vegan & Chemical-Free

EVAA+ Green Floor Cleaner is chemical-free, non-polluting, non-carcinogenic and hypoallergenic. It is safe for cleaning operatives and the environment and is quickly biodegradable.

INSTRUCTIONS

Shake before use. Depending on the contamination, add 40 - 80ml EVAA+ Floor Cleaner to 10 litres of warm water. Mop and rinse with water to remove foam.

1 litre concentrate makes 125-250 litres of floor cleaning solution.

3 litre concentrate makes 375-750 litres of floor cleaning solution.

5 litre concentrate makes 625-1250 litres of floor cleaning solution.

25 litre concentrate makes 3125-6250 litres of floor cleaning solution.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Surfactant
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Orange & Basil Aroma

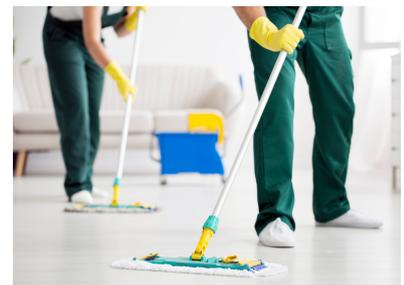

Bottle - 1 litre
Bottle - 3 litres
Bottle - 5 litres
Tub - 25 litres

✓ Improves allergy management for people & pets

✓ Keeps working between applications

✓ Non-toxic & safe for cleaning operatives

ASK ABOUT THE RANGE!

evaa⁺ HAND SOAP

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Protects Hands from Harmful External Influences

EVAA+ Probiotic Hand Soap cleans hands thoroughly and gently and is moisturising, sustainable and chemical-free. It is packed with the natural cleaning power of carefully chosen 'good' probiotic bacteria, from plants.

The helpful probiotics have a safe, natural and mechanical action that restores healthy microbial balance to the hands. This action continues to work between washes, helping to protect the hands from external influences. This significantly reduces the risk of contracting bacterial infections such as E. coli (without causing antimicrobial resistance).

The helpful probiotics remain on the hands after washing or sanitising with alcohol-based hand gel.

EVAA+ Probiotic Hand Soap is especially effective at removing tough stains including grease, oil, dirt and mud.

Natural, Vegan, Chemical-Free & Hypoallergenic

EVAA+ Hand Soap is non-irritating, hypoallergenic and suitable for sensitive skin. The soap is enriched with Aloe Vera oil, which moisturises and softens, protects cell membranes and accelerates the formation of new skin cells. This provides long term care and protection for the hands.

The soap is Eco-Cert certified as sustainable and kind to the environment. Ingredients are naturally sourced, non-polluting and quickly biodegradable - with no chemicals, toxins, carcinogens, parabens or aluminium.

INSTRUCTIONS

Wet hands and pour 2 to 3ml into one hand. Wash for 20 seconds then rinse liberally with warm water. Dry thoroughly

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Aloe Vera Oil
- Thickener
- Surfactant
- pH Stabiliser
- Emulsifier (Castor Oil)
- Aloe Vera Aroma

evaa⁺ INTERIOR CLEANER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Restores Healthy Microbial Balance to Hard Surfaces

EVAA+ Green Interior Cleaner is an eco-friendly, vegan and chemical-free spray for cleaning hard surfaces. The easy-to-use spray is packed with the natural cleaning power of 'good' probiotic bacteria, sourced from plants. These helpful probiotics clean at a microbial level to restore ecological balance - a healthy microbiome - to hard surfaces. Regular use creates an increasingly healthier indoor environment.

EVAA+ Green Interior Cleaner has a mechanical action that cleans the dirt in nooks and crannies and naturally inhibits harmful bacteria that cause disease. This reduces the risk of common bacterial infections such as E. coli and Staphylococcus aureus. Unlike chemical products, this mechanical action continues to work after application - so results are longer lasting.

The spray also has a preventative effect on dust mite, pollen, pet hair and other organic-based skin and respiratory allergy reactions. It also eliminates the root organic sources of unpleasant bio-odours, instead of masking with chemical air fresheners.

Non-Toxic & Safe for Cleaning Operatives

EVAA+ Green Interior Cleaner is safe for long term use by cleaning operatives: Ingredients are naturally sourced, non-polluting and hypoallergenic - with no chemicals, carcinogens, toxins, parabens or aluminium.

EVAA+ Green Interior Cleaner is sustainable and quickly biodegradable and reduces the environmental burden: When discarded down the drain it continues to work, cleaning the pipework and the waste water.

INSTRUCTIONS

Shake before use. Spray lightly onto the surface and wipe with a clean microfibre cloth. Spray is economical and easy to use.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- For use on waterproof surfaces only.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Surfactants

evaa⁺ ODOUR REMOVER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Eliminates the Root Causes of Unpleasant Odours

EVAA+ Friendly Odour Remover is highly effective because it directly eliminates the root causes of unpleasant odours, rather than masking them. It is chemical-free and non-toxic and is far safer in indoor air than traditional air fresheners and masking fragrances.

The spray is enriched with the natural cleaning power of 'good' probiotic bacteria, naturally sourced from plants. These beneficial probiotics work thoroughly and efficiently at a deep microbial level.

The spray eliminates foul smells by precisely removing the root cause in a direct, unique, natural and organic way: A patented deodoriser surrounds and encapsulates the molecule causing the odour (such as pathogenic bacteria, bio-allergens or waste organic matter). This stops the odour from being circulated. The helpful probiotic bacteria then eat the odour molecule, treating it as an organic waste food source.

This natural process removes the source of the smell, rather than masking it with polluting and environmentally-damaging chemicals.

Plant-Based, Vegan & Cruelty-Free

EVAA+ Friendly Odour Remover spray is completely safe, non-irritating and non-polluting, contains no dyes and does not stain. All ingredients are vegan and cruelty-free.

The helpful probiotic bacteria in EVAA+ Friendly Odour Remover are odour-free. A pleasant, natural orange and basil aroma is added to the spray.

INSTRUCTIONS

Shake before use. spray directly onto any sources of unpleasant odour.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

evaa+ SANITARY CLEANER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Creates a Safer, Cleaner & More Inviting Washroom

EVAA+ Green Sanitary Cleaner is an easy-to-use, highly concentrated spray that is specifically designed for washrooms. It is a safer, eco-friendly and more responsible alternative to chemical cleaners and air fresheners.

The spray is packed with the natural cleaning power of completely safe 'good' probiotic bacteria, sourced from plants. These helpful probiotics thoroughly and naturally clean and restore healthy balance at a deep microbial level.

They work in a natural and mechanical way that inhibits potentially harmful opportunistic bacteria. This significantly reduces the risk of bacterial infections such as E. coli and C. difficile.

The helpful probiotics also remove the root causes of unpleasant odours, including the persistent odour of urine. The resulting clean is more hygienic, healthier and safer, making the washroom a more pleasant environment.

Safer for Cleaning Operatives Than Chemical Sprays

Switching to EVAA+ Green Sanitary Cleaner protects cleaning operatives from health issues caused by long term use of chemical cleaning agents.

The spray is non-polluting, environmentally friendly and quickly biodegradable. Ingredients are vegan and naturally sourced - with no chemicals, carcinogens, irritants, toxins, parabens or aluminium.

Spray - 500ml
Bottle - 3 litres
Refill Bottle - 5 litres
Tub - 25 litres

 **Reduces risk of bacterial infections**

 **Fresh, natural orange & basil aroma**

 **Chemical-free, natural & safe for operatives**

INSTRUCTIONS

evaa⁺ TOILET CLEANER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Cleans Without Chemicals at a Deep Microbial Level

EVAA+ Friendly Toilet Cleaner cleans toilets and drains thoroughly, naturally and effectively at a deep microbial level. It is packed with completely safe 'good' probiotic bacteria, which are naturally sourced from plants.

These helpful probiotics consume organic waste - including sewage and urine - and transform it into a harmless gas that humans cannot smell. They inhibit potentially harmful pathogenic bacteria, which significantly reduces the risk of bacterial infections such as E. coli. They also have a descaling action, which removes limescale and keeps pipes working efficiently.

EVAA+ Friendly Toilet Cleaner is thixotropic and does not immediately disappear straight down the drain. All ingredients are non-corrosive, non-toxic and quickly biodegradable, with no chlorine or other aggressive agents. This provides a safer cleaning solution that is completely safe for operatives and the environment.

EVAA+ Friendly Toilet Cleaner has a natural orange and basil aroma.

Reduces Septic Tank Cleaning Requirements

After flushing, the helpful probiotics in EVAA+ Friendly Toilet Cleaner continue to consume the organic waste whilst in the drain and sewers. This significantly reduces the quantity of physical waste in septic tanks, which reduces cleaning requirements and related costs.

INSTRUCTIONS

Shake before use. Apply EVAA+ Friendly Toilet cleaner under the rim of the toilet and allow to soak for 10 minutes. Then scrub with a brush and flush. Regular use prevents limescale.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- pH Stabiliser
- Surfactant
- Thickener
- Emulsifier (Castor Oil)

evaa+ UNIVERSAL CLEANER

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Restores Healthy Microbial Balance to Surfaces

EVAA+ Green Universal Cleaner is packed with the natural cleaning power of completely safe 'good' probiotic bacteria, sourced from plants.

These helpful probiotics thoroughly and naturally clean hard surfaces at a deep microbial level. They work in a natural and mechanical way that allows them to reach and clean deeply ingrained dirt. This action is longer lasting and continues to work effectively between applications.

The helpful probiotic bacteria also naturally inhibit potentially harmful bacteria that cause infections. This significantly reduces the risk of contracting bacterial infections such as E-coli and Staphylococcus aureus.

The helpful probiotics significantly reduce the bio-allergens and bio-hazards that affect indoor air quality and hygiene: pollen, dust mite faeces, animal dander, mould and odours.

Natural, Vegan & Chemical-Free

Switching to EVAA+ Universal Cleaner is safer for cleaning operatives. It is non-toxic, non-polluting and non-carcinogenic and does not contain any chemicals, parabens or aluminium. This means it protects operatives from health issues caused by long term use of chemical cleaning agents.

Ingredients are vegan, non-irritating and hypoallergenic a fresh smelling natural mint aroma. EVAA+ Universal Cleaner has a non-foaming formula and works in a natural way that reduces antimicrobial resistance. It is kind to the environment and quickly biodegradable.

INSTRUCTIONS

Shake before use. Dilute 50 - 100ml in 10 litres of warm water and apply onto surfaces.

1 litre concentrate makes 125 - 250 litres cleaning solution.

5 litre concentrate makes 500 - 1000 litres cleaning solution.

25 litre concentrate makes 2500 - 5000 litres cleaning solution.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- For use on waterproof surfaces only.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

PROBIOTIC AIR DISPENSER

CONTINUOUSLY CLEANS HARD & SOFT SURFACES

Range of sizes - standalone, wall mounted or in duct

Restores Healthy Environmental Microbial Balance

The automated Ingenious Probiotic Air Dispenser simply, safely and repetitively dispenses billions of health-enhancing 'good' probiotic bacteria into the air stream.

This restores a natural, healthy and varied micro-flora (the collective bacteria and other micro-organisms), which is known to increase environmental protection and support immunity.

The carefully selected, helpful probiotics are vegan and naturally sourced from plants. They clean inside the air conditioning and ventilation duct work as well as the hard surfaces, high touch' areas and soft furnishings. They also reach into the nooks and crannies and often missed areas - including curtains, keyboards, door handles.

The dispenser is suitable for all building applications and comes in a range of sizes for standalone, wall mounted or in duct use.

Helps Meet CIBSE TM40 Indoor Hygiene & Air Quality Recommendations

The dispenser is easily installed or retrofitted to air conditioning and ventilation duct work. This cleans inside the duct work, which minimises mould and pathogen bacteria being blown into occupied areas. This improves indoor air quality and helps meet CIBSE TM40 recommendations for indoor air quality and hygiene.

The dispenser also reduces the organic triggers of skin and respiratory allergies - including pollen, dust mite faeces and mould. It also eliminates the root causes of unpleasant odours without chemicals.

SPECIFICATIONS

- Approx. coverage 600m² (depending on application).
- Dimensions: W170 x D170 x H230mm.
- Weight: 7kg.
- Power: 26W.
- Noise: <50dba.
- Consumption: site/application dependent.
- Power cord supplied for 220/240/110 volt.

✓ **Reduces
bio-allergens &
harmful bacteria**

✓ **Cleans hard
to reach areas &
soft furnishings**

✓ **Vegan,
non-polluting &
chemical-free**

Use with
DENAA+ Air Optimiser

Super DrecksKëscht

Denaa+ AIR OPTIMISER

PROBIOTIC AIR DISPENSER REFILL SOLUTION

Restores Healthy Microbial Balance to Indoor Environments

DENAA+ Air Optimiser is used with the **Ingenious** Probiotic Air Dispenser. DENAA+ Air Optimiser is packed with the natural cleaning power of carefully chosen, 'good' probiotic bacteria, sourced from plants.

These helpful probiotics are one of nature's most powerful assets. When gently diffused into a room through the **Ingenious** Probiotic Air Dispenser, they safely restore natural ecological balance and a healthy microbiome to everything they touch. This fosters a healthier and more protective indoor environment:

Reduces bio-allergens & root causes of bad odours

The helpful probiotics reduce bio-allergen triggers (including dust mite faeces, pollen, skin flakes, mould spores) as a natural food source. This helps prevent skin and respiratory allergy symptoms. They also inhibit opportunistic pathogenic bacteria, which reduces the risk of contracting bacterial infections.

DENAA+ Air Optimiser works in safe, mechanical way that reduces the risk of bacterial infections, whilst reducing antimicrobial resistance. DENAA+ Air Optimiser actively eliminates root causes of bad odours. A choice of natural scents can be added if preferred.

DENAA+ Air Optimiser is eco-friendly and scientifically proven as non-toxic. It meets NF EN ISO 16000-9 and NF EN ISO 16000-11 (VOC) standards.

DENAA+ Air Optimiser is eco-friendly, non-irritating and non-polluting.

INSTRUCTIONS

Screw securely into the **Ingenious** Probiotic Air Dispenser as per manufacturers instructions.

RECOMMENDATIONS

- For use with the **Ingenious** Probiotic Air Dispenser.
