

INGENIOUS PROBIOTICS

evaa+ HAND SOAP

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Protects Hands from Harmful External Influences

EVAA+ Probiotic Hand Soap cleans hands thoroughly and gently and is moisturising, sustainable and chemical-free. It is packed with the natural cleaning power of carefully chosen 'good' probiotic bacteria, from plants.

The helpful probiotics have a safe, natural and mechanical action that restores healthy microbial balance to the hands. This action continues to work between washes, helping to protect the hands from external influences. This significantly reduces the risk of contracting bacterial infections such as E. coli (without causing antimicrobial resistance).

The helpful probiotics remain on the hands after washing or sanitising with alcohol-based hand gel.

EVAA+ Probiotic Hand Soap is especially effective at removing tough stains including grease, oil, dirt and mud.

Natural, Vegan, Chemical-Free & Hypoallergenic

EVAA+ Hand Soap is non-irritating, hypoallergenic and suitable for sensitive skin. The soap is enriched with Aloe Vera oil, which moisturises and softens, protects cell membranes and accelerates the formation of new skin cells. This provides long term care and protection for the hands.

The soap is Eco-Cert certified as sustainable and kind to the environment. Ingredients are naturally sourced, non-polluting and quickly biodegradable - with no chemicals, toxins, carcinogens, parabens or aluminium.

INSTRUCTIONS

Wet hands and pour 2 to 3ml into one hand. Wash for 20 seconds then rinse liberally with warm water. Dry thoroughly

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
