

evaa⁺ HYGIENE SPRAY

PROBIOTIC COMMERCIAL & RESIDENTIAL CLEANING

Keeps Reusable Face Masks & Textiles Clean & Hygienic

EVAA+ Hygiene Spray makes wearing a material face mask more pleasant and hygienic. The spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants. These helpful probiotics introduce a natural, healthy micro-flora directly onto the fabric, which creates a protective barrier for the wearer.

EVAA+ Hygiene Spray reduces the washing frequency, which protects the mask's effectiveness. Intensive washing can make fabric more permeable. Increasing comfort increases mask wearing compliance.

The anti-allergic formula also improves allergy management by reducing organic-based skin and respiratory allergy reactions to dust mite, pollen, pet hair and other bio-allergens.

Spray - 100ml
Spray - 300ml

✓ **Makes masks more hygienic & comfortable.**

✓ **Reduces washing requirements**

✓ **Suitable for trainers, gloves & other textiles**

- ✓ Cleans organic dirt and saliva.
