TESTIMONIAL

Lucaa+ EQUINE PROBIOTIC SHAMPOO & SKIN CARE SPRAY

"My horse suffers from feather mites and his legs get so itchy and irritated he makes himself bleed from scratching.

I bathed his legs in LUCAA+ Equine Probiotic Horse Shampoo, which was very kind on his skin and smelt amazing. The shampoo cleaned his legs so well his four whites were gleaming! You could immediately see this soothed the itchiness and irritation.

I also sprayed his legs LUCAA+ Equine Probiotic Pastern (Skin Care) Spray. By the next morning the redness and swelling had already reduced significantly and so had the itchiness. He didn't make himself bleed from scratching.

I am very impressed with these products and highly recommend them."
