HORSE HOOF CARE

Lucaa⁺ EQUINE PROBIOTIC CARE & HYGIENE

Improves Hoof Health and Resilience

LUCAA+ Horse Hoof Care improves hoof cleanliness and health, which reduces the risk of bacterial and fungal infections. The spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants.

The helpful probiotics restore healthy, natural balance at a microbial level, which helps to strengthen and protect the hooves. They inhibit harmful bacteria and reduce the risk of bacterial and fungal infections (thrush) from developing. They also remove organic waste and dirt.

Strengthens, Cleans and Reduces Infections

Horses' hooves are made of a tough protein called keratin, but are vulnerable to injury because of constant contact with the ground. Proper hoof care is essential for the overall health and well-being of the horse.

Thrush is a fungal infection caused by bacteria penetrating the hooves. Left untreated, it can be serious: the hoof can rot and become black, soft and foul-smelling, especially around the steel quarries. Vets and farriers can easily diagnose thrush from this specific unpleasant smell.

Many hoof care products contain harsh, chemical ingredients that can push harmful bacteria to develop resistance to standard treatments. This fuels the rising problem of antimicrobial resistance (AMR). LUCAA+ Hoof Care works differently and in a safe, natural and mechanical way. It does not contribute to AMR and can help reduce antibiotic requirements.

INSTRUCTIONS

Shake before use. Clean and dry hooves thoroughly. Spray LUCAA+ Horse Hoof Care lightly onto hooves. Repeat three times a week for best results. Regularly trim hooves and keep the radius grooves clean; ensure the horse has a dry shelter. Always consult a vet if in doubt or symptoms persist.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- If symptoms persist consult a vet.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Odour Eliminator
- pH Stabiliser
