

INGENIOUS PROBIOTICS

# HORSE INTIMATE CARE

## Lucaa<sup>+</sup> EQUINE PROBIOTIC CARE & HYGIENE

### Fosters Optimal Genital Hygiene & Health

LUCAA+ Horse Intimate Care is specially formulated to clean the genital area gently and thoroughly. The soothing spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants.

The helpful probiotics restore healthy, natural balance at a microbial level. This significantly reduces the accumulation of smegma and reduces inflammation and the risk of bacterial and fungal infections.

It is important to care for every part of the horse, and the sensitive genital area can present hygiene challenges. Sticky smegma scabs can accumulate in the sheath of a stallion or gelding. This can form clots and attract other debris, which causes discomfort and can lead to inflammation. White haired horses sometimes have visible smegma stains on their hind legs.

### Beneficial for Mares too

LUCAA+ Horse Intimate Care is also suitable for mares, and can be safely used to remove sweat and dirt build up between their udders.

### INSTRUCTIONS

Clean the genitals regularly for optimal health. Ensure the horse is relaxed and in a calm environment (usually during a wash). Shake before use. Spray the sheath and penis with LUCAA+ Horse Intimate Care and wash with a soft sponge or cloth and lukewarm water. If the horse will not allow touching, spraying directly onto the area without contact is also effective.

Spray the smegma stains on the inside of the hind every three days and allow the helpful probiotics to fully soak in; the stains will fade. Always consult a vet if in doubt or symptoms persist.

### RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- If symptoms persist consult a vet.

### COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Surfactant
- Thickener
- pH Stabiliser
- Emulsifier (Castor Oil)
