

INGENIOUS PROBIOTICS

# HORSE PASTER (SKIN) CARE

## Lucaa+ EQUINE PROBIOTIC CARE & HYGIENE

### Reduces the Risk of Pastern Dermatitis (Mud Fever)

LUCAA+ Horse Skin Care thoroughly and gently cleans the pastern cavity, restoring a healthy microbial balance. The spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants.

The helpful probiotics increase the skin's natural resistance to opportunistic bacterial infection and other harmful external influences. This reduces the risk of the horse developing mud fever when applied to the pastern cavity.

Mud fever - or Pastern Dermatitis - is a distressing condition for horses. It causes skin to become painfully inflamed, swollen, hot to touch and develop scabs in the lower limbs. If left untreated, inflammation can spread from the hoof to the rest of the leg, the sub-cutaneous tissue and lymphatic vessels. This can lead to complications such as lymphangitis.

Dry mud fever (erythematous dermatitis) causes redness and flaking. Wet mud fever (eczematous dermatitis) causes skin thickening, crusts and eczema and can lead to fissures. The most severe form (verrucae dermatitis) makes skin red, with thickened folds and hard crusts. This can drastically reduce mobility.

### Naturally Sourced and Chemical-Free

All ingredients are plant-based, vegan and free from toxins, chemicals and pollutants. Added sesame oil provides a sun protection factor.

Spray - 300ml

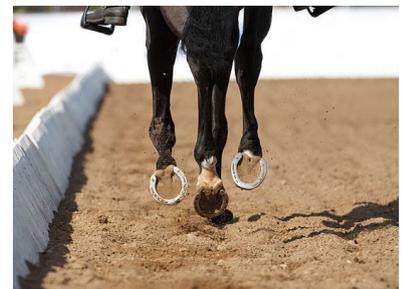

**Reduces risk of infections**

**Minimises risk of mud fever**

**Provides sun protection**

### INSTRUCTIONS

Remove mud and dirt with lukewarm water and dry thoroughly (possibly with a dryer). Shake before use. Spray lightly onto the dry pastern cavity. Repeat three to four times a week for best results. Always consult a vet if in doubt or symptoms persist.

### RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Avoid contact with eyes & nose.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- If symptoms persist consult a vet.

### COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Emulsifier (Castor Oil)
- Sesame Oil
- pH Stabiliser
