

INGENIOUS PROBIOTICS

PET EYE CARE

Lucaa⁺ PROBIOTIC CARE & HYGIENE FOR PETS

Reduces Inflammation, Infections and Allergies

LUCAA+ Pet Eye Care improves eye cleanliness and comfort and reduces the risk of common conditions such as conjunctivitis. It also prevents discolouration under the eyes caused by 'tear stains'. The spray is enriched with beneficial 'good' probiotic bacteria, naturally sourced from plants.

These helpful probiotics restore healthy microbial balance to the skin around the eyes and eyelids, keeping them hydrated and healthy. They inhibit harmful bacteria and minimise allergic reactions to bio-allergens including pollen and mite faeces. They remove organic waste, dust and dirt, which improves comfort, whilst reducing infection, itching and inflammation.

LUCAA+ Pet Eye Care works in a safe, mechanical way that reduces antimicrobial resistance and can help reduce antibiotic use.

Improves Eye Comfort, Hydration and Health

If a hard crust forms in the corner of the eye or eyelid, use LUCAA+ Pet Eye Care to soften the area first. This allows the crust to be gently removed without distress. Yorkshire Terriers are at particular risk of this problem.

Dogs with bulging eyes and flat snouts, such as Pekingese, Boston Terrier, Pug and Maltese breeds, are susceptible to developing eye conditions. If their skin folds touch the inner corner of their eyes this can lead to watery eyes and pigment disposition in the cornea, reducing visibility. Removing excess tears daily reduces inflammation and infection of the skin fold. If irritation continues, seek veterinary assistance to reduce the fold.

Spray - 100ml

✔ **Vegan, plant-based & chemical-free**

✔ **Reduces irritation & allergic reactions**

✔ **Reduces 'tear stain' discolouration**

INSTRUCTIONS

Always work with gloves and clean materials. Clean eyes with damp swab of warm water. Shake before use. Soak a cotton ball or tissue with LUCAA+ Pet Eye Care and gently dab on the eyelids. Use a different tissue for each eye to reduce cross infection. Repeat frequently to prevent recurring inflammation. Always consult a vet if in doubt or symptoms persist.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.
- If symptoms persist consult a vet.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- pH Stabiliser
