

INGENIOUS PROBIOTICS

LIVESTOCK HOUSING CLEANER

anna+ LIVESTOCK PROBIOTIC CARE & HYGIENE

Fosters a Healthy and Productive Environment

ANNA+ Stable Cleaner fosters a safer, healthier and more productive indoor environment for housed livestock including cattle, pigs, sheep and poultry. It keeps animal buildings, equipment and feeding troughs cleaner and hygienic at a microbial – not just visual – level.

This eco-detergent is enriched with 'good' probiotic bacteria, naturally sourced from plants. The beneficial probiotics actively restore healthy ecological balance (the microbiome) and foster an environment that supports immunity and well-being and reduces stress. This especially benefits young and new born animals.

ANNA+ Stable Cleaner works in a sustainable, mechanical way that breaks down biofilm without causing antimicrobial resistance.

Reduces Ammonia & Foul Odours

The probiotics actively eliminate the odour molecules in organic waste, urine and manure that cause unpleasant animal odours. This improves air quality and reduces exposure to caustic urea and ammonia odour, reducing stress and the risk of pneumonia. They continue working for up to 3 days between applications.

Screw Cap - 10 litres

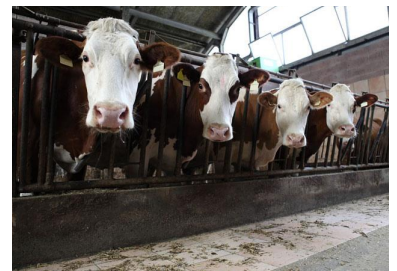

✔ **Reduces risk of bacterial infections**

✔ **Reduces antibiotic consumption**

✔ **Bio-degradable, non-polluting & chemical-free**

INSTRUCTIONS

Wipe area and remove excess contamination. Shake before use. Add 100ml of ANNA+ Stable Cleaner to 10 litres of warm water. Concentration can be doubled if contamination requires. Scrub all surfaces, walls and feeding trough. Allow solution to sink in for 20 minutes then rinse with clean water. Always follow the instructions when cleaning with high pressure cleaning equipment. For best results, clean weekly and use ANNA+ Stable (Livestock Housing) Stabiliser Granules and Liquid in between cleans.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes & nose.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Surfactant
- Plant-based probiotic bacteria (auto-active microorganisms)
- Odour eliminator
- Emulsifier (castor oil)
- Mint aroma
- pH stabiliser
