

DENAA+ Floor Cleaner CON

TECHNICAL DATA SHEET

TECHNICAL REQUIREMENTS

Density at 30°C, g/mL approx. 1,03
pH 3,0 – 4,0
pH of 1% solution 4,0 – 5,0
Water content, % min. 60
Microbiological status, CFU/mL >1x10⁶

GENERAL DATA

Appearance at (20÷25)°C liquid
Colour yellow
Transparency opaque
Solubility in water high
Odour Lemon scent

COMPOSITION

Aqua, Bacterial mixture of Bacillus, Alcohols C12-14 (ethoxylated), sulfates, sodium salts, Citric acid, Lemon aroma ..

GUIDE FORMULATION

Recommended use concentration, 1:100 dilution, 100mL in 10L water

APPLICATION

Concentrated detergent for industrial cleaning.....

SHELF LIFE

Guaranteed period of stability: 24 months from the date of manufacture

STORAGE CONDITIONS *

Storage at room temperature, between 15 and 30°C.....
Store in closed container.....
Prevent product from freezing
